What is "FARAWAY TRAIN"?

Some folk call these barren plains the narrow space between this world and the next.

The final place for souls to find a measure of peace.

Inside a train that runs forever, we chase the downfall of an empire that once boasted eternal glory and the clues of a noble girl forgotten and thrown about by history.

And the destination of the train is...

Story

The protagonist awakens inside an unfamiliar old-fashioned train and is told to trace the fleeting life of the fallen Emperor Roxelana, who led the world to ruin using the ancient magical artifact "Nebula's Astrolabe," and to uncover when and where it was used. By exploring the clues within the train and deducing the significant years of Roxelana's life to input into the door of the train car, the door to the next car opens.

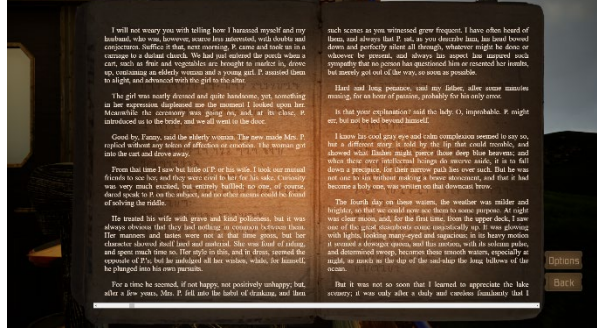

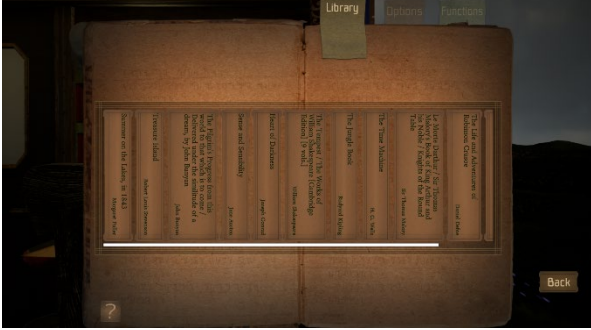

Gameplay mechanics

- An adventure game where you explore each train car and solve puzzles to escape.
- Between the train cars, there are button-locked doors that cannot be passed without solving the puzzles.
- Additionally, there are safes and mysterious treasure chests that require finding keys to obtain hints.
- Decode hints from letters and notes to discover the downfall of an empire that boasted eternal glory and the clues of a noble girl forgotten by history.
- The player will never see the same landscape twice, procedurally generated beautiful and vast scenery spreading endlessly through the train windows.
- The game also offers Free Mode where the player can freely walk around the train, sit in any seat, look out the train window, and read the ePUB file.
